

February 16, 2010

Dear Sirs and Madams:

This letter is to provide a letter of reference for J&H Engineering of Camarillo, CA. J&H Engineering was the contractor for the Ventura County Microwave Network Project, and I was the project manager for the County of Ventura. J&H Engineering did an excellent job for the project. The project completed on schedule and within budget. During construction, they were very responsive in bringing up any issues and questions occurred in the field and quick to respond to our questions and requests. They are very good and reasonable to work with. I highly recommend them for your project.

As a result of the excellent team work of the County project management team and J&H Engineering, the Ventura County Microwave Network Project was one of the six projects to receive the Year 2010 Project of the Year Award by the Ventura County Chapter of the American Public Works Association.

If you have any questions, please feel free to contact me at 805-658-4354.

Sincerely,

Susan Pan, P.E.
