LETTER OF RECOMMENDATION

Dear Ms. Mc Mullen,

The purpose of this letter is to thank you and your company for the professional service you have provided to Ventura Regional Sanitation District (VRSD). For several years now your firm has been included on our list of contractors who are used during emergency situations. To be included in this list, a firm must demonstrate a high level of technical expertise, dependability and fair pricing.

In addition to helping on these emergency repairs, your firm has been the contractor selected for several VRSD capital projects. In addition to water and sewer system installations and repairs in the Triunfo Sanitation District, your company recently built our Water and Wastewater Division's Operation and Maintenance Center. This project highlighted your construction qualifications and skills as well as attesting to your professionalism and efforts to establish a quality business relationship.

We appreciate working with you and your staff and we are happy to provide you with this letter of recommendation. If you have any questions or if you need additional information, please contact me at (805) 658-4674 or sallycoleman@vrzd.com

Sincerely,

A handwritten signature in black ink that reads 'Sally Coleman'.

SALLY COLEMAN - DIRECTOR OF OPERATIONS
